

The OMSLife Foundation - 2019 Budget and Expenses

The 2019 OMSLife revenues showed consistent progress since our eight year history. Our receipts were \$91,829 for calendar year 2019. Primary donations continued to be come from the Pirouline fundraiser. We also continued to be blessed with repeat donors.

Expenses for 2019 came in at \$51,902. We provided the second year of seed money to Dr. Mark Gorman at Boston Childrens' Hospital for an OMS bio-bank. We also continued to fund the OMS patient reported natural history study. Finally, Administrative expenses * continue to be underwritten annually by an anonymous donor. This means that every dollar donated goes to achieve our mission.
