present

# **The Tenth International Workshop on Opsoclonus Myoclonus Syndrome Clinical and Basic Science**

**The Cosener's House, Abingdon, Berkshire**

**6<sup>th</sup> – 8<sup>th</sup> October 2022**

## THE WORKSHOP

This is the 10th International OMS workshop to be held at The Cosener's House, Abingdon. Formerly known as Dancing Eye Syndrome workshops, they are an opportunity to bring together clinicians and scientists with a special interest in the condition. Parents and patients contribute first-hand experience of the lives of children with OMS.

The organisation of the workshop is thanks to the dedication of the members of the OMS scientific steering committee.

The workshop is being financed jointly by OMSLife and Dancing Eye Syndrome Support Trust.

Thank you to the Cosener's House for providing such a conducive venue for this kind of meeting.

Thank you to everyone who has given up their time to come and participate in this workshop.
