

**Enrique Alvarez's** practice specializes in neuroimmunology and neurology for adults at UCHealth NeuroSciences Center in Aurora Colorado. Dr. Alvarez treats patients suffering from Multiple Sclerosis and other neuroimmunological disorders of the central nervous system including neuromyelitis optica, neurosarcoidosis, and autoantibody/paraneoplastic syndromes. His treatment approach is multidisciplinary care for MS and related diseases. He believes in aggressive treatment of MS with disease modifying and symptomatic therapies.

Dr. Alvarez has seen adult OMS cases previously.
